

Becoming A Member Is Easy. Registering Goes Real Fast.

There are only five blanks to fill in, plus your password and password confirmation. After you register, a "minimalist" NPAFE profile page featuring you will appear on your screen.

You can add to your profile anytime: about your creativity, performances, career goals - really anything you want show and tell: narratives, photos, links, websites, videos, soundtracks and lots more.

At a minimum, we recommend that you upload profile and cover images that you love.

How to edit your profile later on? Each time you log in, the Member Home Page appears with a button to open your profile. Or you can click on the hamburger menu item: "For Performing Artists" and then "View/Edit Your Profile".

When your profile pops up, click on the orange Settings icon at the bottom right of the large cover photo. That opens everything for editing and uploading or changing your profile and cover photos.

To save your changes, click on the orange checkmark where the Settings icon used to be. Or, scroll down and click on the large orange Update Profile button at the bottom left.

Only the information you fill in will appear on your profile. That way, your profile will always look complete, without any blank spaces.

Share your NPAFE profile link with everyone you want! We'll help by telling the rest of the world about you, too!
